

JET WASHING

The Clean Express Line

A SOLVENT FREE WORLD.

CLEAN EXPRESS

Powerful, Graceful,
Compact, Loaded

Sets the "standard" so high, you don't need "options".

CE-2000 shown

CLEANING WITH WATER

Parts are automatically cleaned with a recirculated detergent and water solution. The force of the spray jets in combination with heat (130-180° F) and the chemical action of the detergent strip away oil, grease, carbon, etc...in 1-15 minutes.

TWO CE MODELS

The CE-2000 and CE-3000 reflect years of experience and customer feedback... these units are powerful...use minimal floor space especially with the roll-in door...important features such as oil skimming, water level controls, digital temp read-out, etc...were made standard...cheap gimmicks, like spinning pipes, were avoided. The result is plain to see...

ROLL-AWAY DOOR

One of the hallmark features of the CE line is the roll-away door which saves floor space. The doors are center supported and don't suffer from the drag problems experienced by doors with outside rollers...hence the Lifetime Guarantee. Two other advantages are: a) if a large part should ever tip over and prevent the door from opening, you don't have to burn a hole in the door... simply un-bolt the roof, and b) the door latches automatically.

LIFETIME GUARANTEES

Lifetime Guarantee against any welds cracking or leaking.

Lifetime Guarantee on the turntable and its' sealed bearing assembly.

Lifetime Guarantee against the door ever jamming.

Nema 12 control panel, all wires numbered, etc...

Your B.E. warranty includes parts and service for (1) year.

STANDARDS/NOT OPTIONS

- Automatic Oil Skimmer
- Low Water Warning and Shut-Down
- Automatic Water Fill
- Over-Full Warning and Shut-Down
- Turntable Rotation Sensor/Jam Protection
- 24 Hr / 7 Day Heat Timer

MORE STANDARD FEATURES

- Digital Temp Control and Read-Out
- Foam Sensor and Shut-Down
- Mid-Swing Cleaning Manifold
- Chip Basket and Sealed Cleaning Chamber
- Ergonomic 31" Loading Height
- CE-2000 is portable

A FEW OPTIONS

- 230 V/460 V 3 Phase Power
- Brush and Pump for Hand Detailing

Machine	CE-2000	CE-3000
Turntable Dia.	27"	37"
Working Height	36"	48"
Weight Capacity	500 lbs.	1,500 lbs.
Load Height	31"	31"
Pump	3 HP	5 HP
Pump Output	60 GPM 45 PSI	100 GPM 50 PSI
Tank Size	55g	100g
Heat	6kW	12kW
Heat-up Time	1.25 hours	1.25 hours
Portable	Yes	No
Electric Power	230V/1 Phase	230V/3 Phase
Full Load Amps	49 Amps	52 Amps
Overall Dimensions (Width/Depth/Height)	42" x 34" x 79" (Height includes Steam Exhaust Stack)	54" x 50" x 94"
Shipping Weight	800 lbs.	2,000 lbs.

CE-3000

The CE-3000 has roughly twice the cleaning area of the CE-2000 and can handle a 1,500 lbs. load.

OVER 15,000 SYSTEMS IN SERVICE

Better Engineering has an extensive line of water-based parts washing machinery. Examples of these systems are:

- 1 The F-4000-P is one of over twenty-five (25) turntable Jet Washers offered by Better Engineering. The turntable diameters vary from 25" to 135".
- 2 The Cyber-Jet conveyor washer line consists of six (6) standard modules that can be combined in any quantity or sequence to form the perfect multi-stage system.
- 3 The Cyclojet 3 is one of three tumbling systems mfg. by BE to clean screw machined parts and larger parts with intricate passageways. This incredible cleaning system offers 9 different cleaning stages including spray, immersion, and ultrasonics.
- 4 The RTO-1000 system is another innovative design for a cellular cleaning system. The operator places a dirty part on the left of the "U-track" and picks up a clean part which is waiting on the right leg of the "U-track"...parts are washed, rinsed, and dried in just one loop thru the system.
