THE VIPER-JETS

**RACING TOWARD
A SOLVENT FREE WORLD**

CLEAN WITH WATER AUTOMATICALLY

Sell your labor.
Don't waste it. Take a bite out of the competition
with faster, safer, healthier auto parts cleaning.

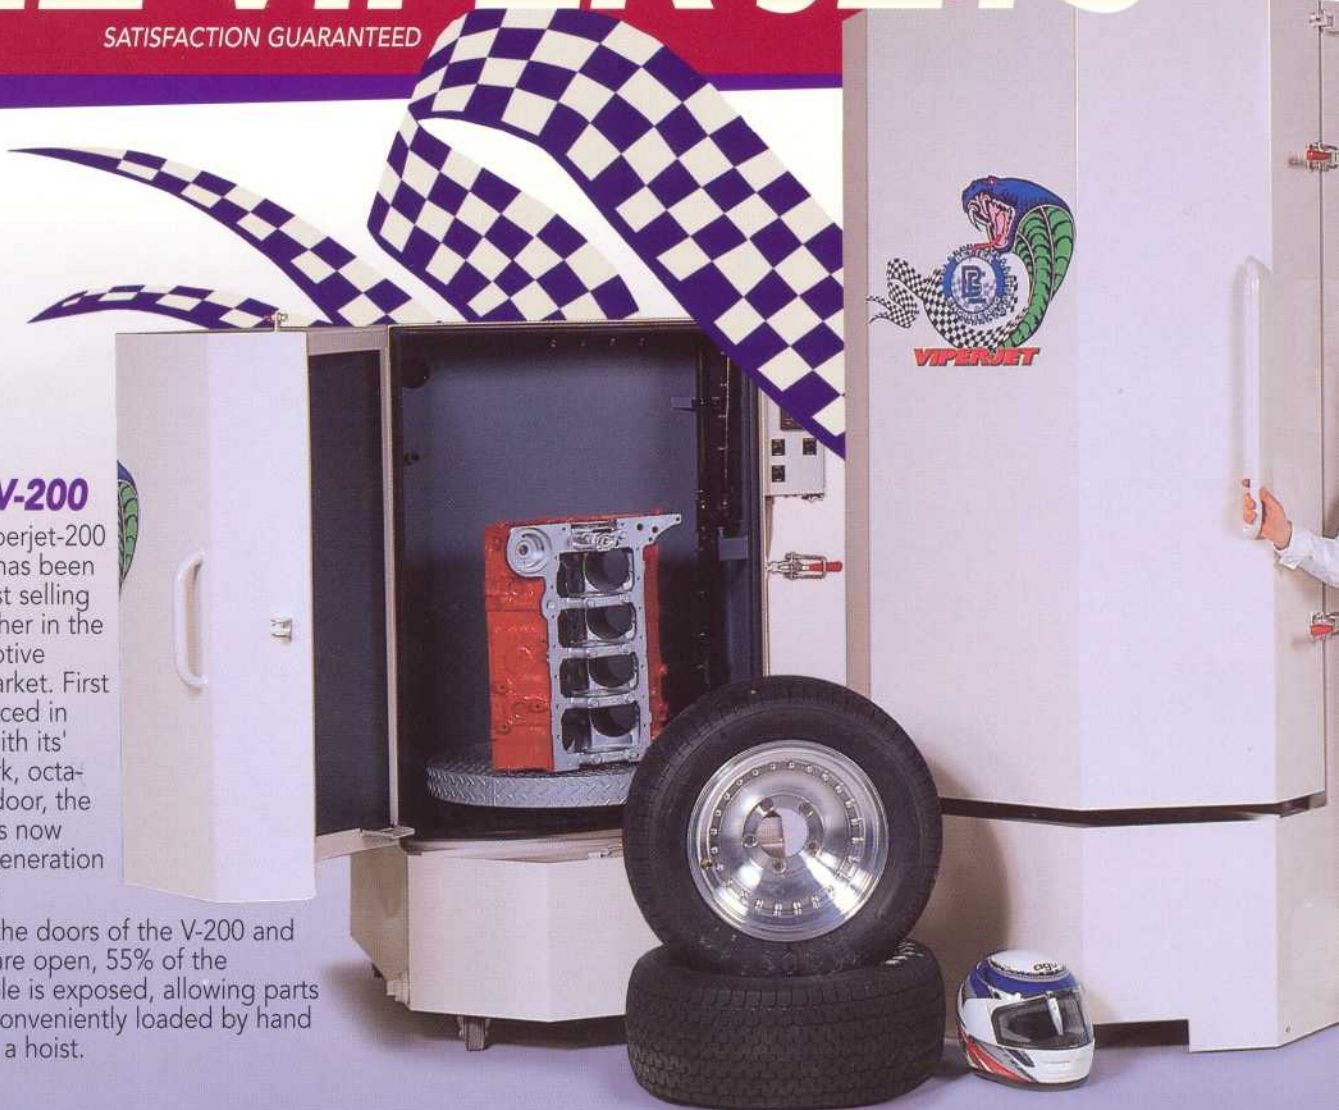

THE VIPER-JETS

SATISFACTION GUARANTEED

The V-200

The Viperjet-200 is and has been the best selling jet washer in the automotive aftermarket. First introduced in 1987 with its' hallmark, octagonal door, the V-200 is now a 4th generation design.

When the doors of the V-200 and V-300 are open, 55% of the turntable is exposed, allowing parts to be conveniently loaded by hand or with a hoist.

Today, there are over 15,000 Better Engineering cleaning systems - like the Viperjets - in service throughout the world. From Cat dealers to car dealers, "B.E." jet washers are saving labor, boosting sales, and getting rid of solvents.

The V-300

The Viperjet-300 is for truck repair centers that need to clean parts as large as a diesel engine block. This jet washer has a 37" diameter, 1500 lb. capacity turntable and 60" of inside working height.

The V-200 and V-300 have special spray manifolds that swing down in the horizontal position to effectively clean small parts.

The V-50

The Viperjet-50 strikes an incredible balance between size, payload, and convenience. Requiring just 41" from front to back (up against the wall/lid open) this jet washer can still hold a 500 lb. part. The sides of the cabinet sweep downward so that the loading edge is just 38" off the ground and only 16" above the turntable.

The "SSB-22" option allows you to hand clean with the same recirculated solution.

"B.E." QUALITY EQUATES TO LIFETIME GUARANTEES

Lifetime Guarantee against any welds leaking... $\frac{1}{8}$ " thick steel cabinets.

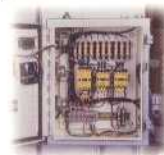

Lifetime Guarantee on the turntable and its' sealed bearing assembly.

Lifetime Guarantee against the (no seals) pump ever leaking on your floor.

Lifetime Guarantee against the door ever jamming.

Nema 12 control panel, all wires numbered, etc...

Your "B.E." warranty includes parts and service for (1) year.

BLOCKS, HEADS, ETC... IN 15 MINUTES

- 1 Load your parts, press "auto clean", and walk away.
- 2 With the turntable rotating at 3 RPM's, the parts are blasted from all directions with a 180° F, detergent and water solution which is continuously filtered and recycled.
- 3 Unload the clean parts which flash dry in seconds.

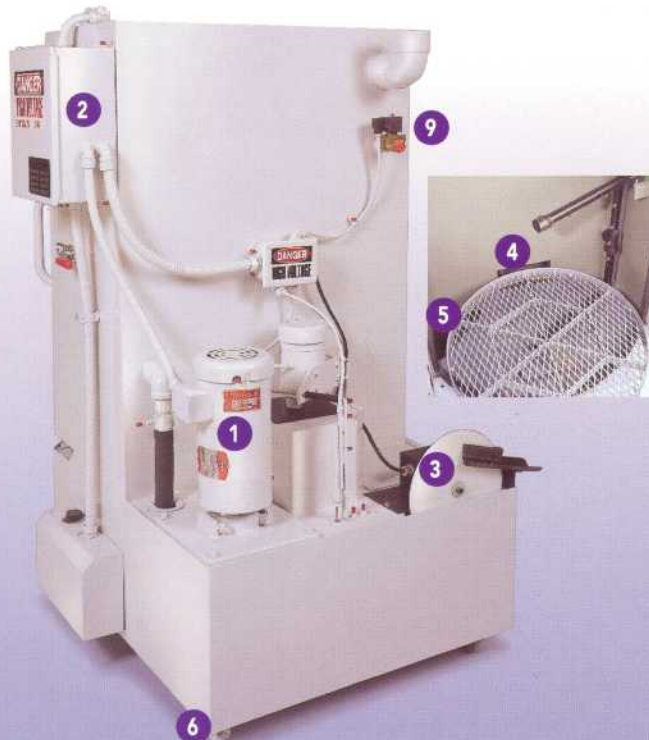

FEATURES

- 1 Vertical (seal-less) pump. (V-200 & V-300)
- 2 Control panel has 30 minute wash timer, 12 hour heat timer, adjustable thermostat, oil skimmer switch, etc....
- 3 Automatic oil skimming system.
- 4 Friction drive system for turntable... will never jam...foam filled tire.
- 5 Removable filter basket traps particles bigger than 1/16".
- 6 V-50 and V-200 are portable with swivel casters.
- 7 The tank cover plate prevents parts from falling into the tank.

OPTIONS

- 8 ATC-24-1 and ATC-24-2 timers to automatically control the heating and oil skimming systems.
- 9 LWS-11 and LWS-F1 water level controls...protects systems by preventing a "low water" condition.
- 10 SSB-22 hand brush option which includes a stainless pump and a panel mounted on-off switch. (V-50 only)
- 11 Three (3) phase power, 230 or 460 volts for V-50 and V-200.
