

# BETTER ENGINEERING FOR A

## TURNTABLE SYSTEMS...

**A**s the turntable rotates, the parts are blasted with a hot, recirculated detergent and water solution...oil, grease, chips, etc. are stripped off in 1-15 minutes... cycle then sequences into optional rinse and dry stages.

## PCS SYSTEMS...

**F**or companies that require stringently clean parts (aerospace, medical, pharmaceutical, etc.), there is the Precision Cleaning System (PCS) Line...all stainless construction, multiple rinse stages, hot air drying system, computerized control station, etc.

# SOLVENT FREE WORLD

## TUMBLING SYSTEMS...

### SIX STAGE CLEANING CYCLE

SPRAY - WASH

IMMERSION - WASH

SPRAY - RINSE

IMMERSION - RINSE

SPRAY - RINSE (FRESH)

HOT AIR - DRY

**B**etter Engineering's Cyclojet models tumble or orbit the parts, combining spray and immersion, to dislodge chips from the most complex castings and screw machine parts.

# BETTER ENGINEERING FOR A

## CAROUSEL SYSTEMS...

**A** "B.E." Carousel system saves space by bending an otherwise linear conveyor into a circle. Parts are washed, rinsed and dried in one revolution. Ideal for work cells, the parts can be returned to the operator or be automatically loaded and ejected.

## CUSTOM SYSTEMS...

**W**hile there are over fifty (50) standard models from which to choose, your application may require something special. Whether it is fixturing or an entirely unique system, Better Engineering has the experience and expertise to do it right.

# SOLVENT FREE WORLD

## CONVEYORIZED SYSTEMS...

**U**p until now, if you wanted a conveyor washer, you were forced into a custom system which usually meant big dollars, big delays, and big mistakes. The Cyber-Jet line, with its' standard modules and options, changes everything.

# WATER-BASED PARTS CLEANING SYSTEMS

Over 10,000 Systems In Use Around The World

**T**oday, there are over 10,000 Better Engineering aqueous cleaning systems in service throughout the world. Established in 1960, Better Engineering pioneered the field of aqueous cleaning and continues to set the standard for precision cleaning machinery.

## "B.E." CUSTOMERS INCLUDE...

- Pratt and Whitney
- Ford Motor Company
- G.E. Aircraft Engines
- Caterpillar
- Lockheed Martin
- General Motors
- Bendix
- Black & Decker
- Martin Marietta
- Japan Airlines
- Westinghouse
- Rolls Royce
