Blast N' Vac with Vacutrans

As environmental codes become more stringent, the demand for contained blasting rises. By enabling media recovery at the nozzle, Empire's Blast N' Vac® product line virtually eliminates the need to collect media manually, resulting in safer, cleaner blasting.

If you have been blasting with a single-

Safety

Safety

We support our portable blasters and blast rooms with a complete line of modern safety equipment that protects operators and complies with OSHA when properly applied and maintained. All devices affecting breathing-air quality should be inspected and serviced regularly, particularly when a multi-purpose compressor is used to supply breathing air.
